STATEMENT OF REASONS FOR ALLOWANCE

Response to Amendment

1. This Office Action is responsive to Applicant's amendment of Dec. 3, 2008.

Response to Arguments

2. Applicant's arguments regarding claims 1-2, 4-10, 12-13, 15-21 have been considered and are persuasive.

Election/Restrictions

3. Claims 1-2, 4-10, 12-13, 15-21 are allowable. The restriction requirement among species, as set forth in the Office action mailed on Sept. 19, 2007, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claim 10, directed to a species no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claim 11, directed to species withdrawn from consideration because it does not include require all the limitations of an allowable claim. Claim 11 was directed to species non-elected without traverse; accordingly, **claim 11 has been cancelled.**

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

4. Claims 1-2, 4-10, 12-13, 15-21 are allowed. The following is an examiner's statement of reasons for allowance: the prior art does not disclose or make obvious, a first front-end optical fiber amplifier, with a pumping light source, a first back-end optical fiber amplifier, a second front-end optical fiber amplifier, a second back-end optical fiber amplifier, and an optical switch that connects an outgoing side of the first back-end optical fiber amplifier and back-end pumping light coupler, or connects the outgoing side of the first back-end optical fiber amplifier and the incident side of the second front-end optical fiber amplifier and the outgoing side of the second back-end amplifier optical fiber amplifier and back end pumping light coupler to each other, in conjunction with other elements of the claims. This statement is not intended to necessarily state all the reasons for allowance or all the details why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
